

Storage Solutions
for Kitchen, Bath and Living Room

HANSMEYER

WOOD & WICKER PRODUCTS

- WICKER BASKETS
- CHOPPING BOARDS
- CUTLERY INSERTS
- DEEP DRAWER ORGANISATION

ABOUT US

Being a modern family owned and managed enterprise in the second generation meanwhile we believe in the importance of personal contact to our customers.

We process material that nature provides: solid wood and wicker. Our basic range includes wicker baskets with and without frame, functional inserts for shallow and deep drawers, chopping boards and further customized products for kitchen, bath and living room.

We are permanently developing new concepts, however, do also work on special organization solutions with our customers and produce to customers' specifications – be them from industry or trade.

The main timber we process is European oak and light beech. Others on request, as well as lacquering to special colours. We already produce inserts in black, white and grey.

Meanwhile we supply not only the domestic market but over 30 countries worldwide. For several years now we have become the global market leader for framed wicker baskets in kitchen cabinets.

We have environmental sustainability on mind and are FSC® certified (FSC® C123240).

BREAD BASKETS

Bread Baskets from European wicker

Special sizes and set packing on request

Colours: natural brown, white

Rectangular basket with 2 handle holes

for every conventional width of kitchen and bath base and top unit module, as well as corresponding depths of the carcasses

Rectangular basket with 4 handle holes

to be used for two different carcass widths turned by 90°

Rectangular basket with pre-assembled felt strips

to prevent scratching of shelves no matter if of melamine, lacquered or veneered surface

Basket with 45° angled front

Appearance of a baker's basket

Our willows are cropped twice a year. For the following 12 months we work with a year's crop and therefore need to do a careful planning regarding the material required.

Wicker is a natural product. It is its nature – like of every other kind of wood – that they will mellow in the course of time and exposure to light. Thus there may be colour variations of the wicker baskets between previous year's crop and the newly harvested willows. This difference will balance out about four weeks after installing the baskets in the cabinet.

All baskets are woven by hand, and from natural willows of different thickness. Slight size tolerances may occur and will have to be accepted.

Please note that the above does also apply to framed baskets, see page 6.

FRAMED BASKETS

Framed Baskets from European wicker

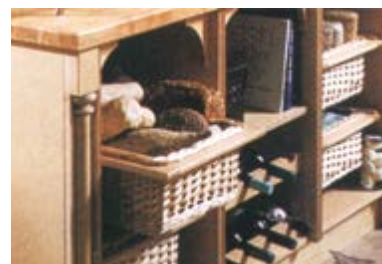

Special sizes and set packing on request

Colours: natural brown, white

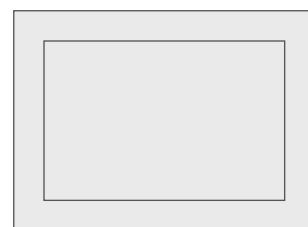

Frame: Solid wood oak, beech or birch clear lacquered, wicker woven through

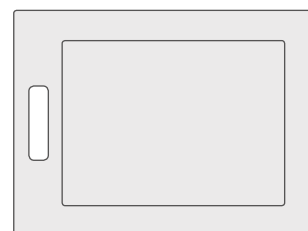

DARLINGTON Basket

- straight edges
